Front-end developer with additional experience in design and account management roles. Seasoned in responsive projects with excellent user experience. Constantly looking to expand my skillset.

EXPERIENCE

Kasasa Front End Developer I
Kasasa
Austin, TX

Provide front-end support to Kasasa.com, B2B, and B2C marketing teams when the primary KFED is out. Work closely with Designers and Copywriters in an agency-type setting to create landing pages and marketing materials with an emphasis on keeping everything consistent with the Kasasa brand. The most notable project to date being a complete rebuild of the Kasasa corporate website on a new platform, HubSpot CMS.

Front End Developer I
Kasasa
Austin, TX

Provide front-end support to all FIRSTBranch clients in an agile work environment. Support requests range from FIRSTBranch mainenance and enhancement to updated online banking login installations. Our goal is to provide quality, dynamic support to each client request within a two-day SLA.

Content Manager
Cassandra Bryan Design
Wichita, KS

Cassandra Bryan Design created custom, fully responsive and mobile friendly websites for industrial specific clients. As Content Manager, I would meet with clients daily to develop the strategy and structure of their website, as well as write copy for websites to capture voice and business goals of each client.

"Actor"
Netflix
Los Angeles, CA

Portrayed an amateur baker on the hit Netflix series, *Nailed It* (premiering Fall 2019). Note: The term "actor" is used very loosely.

AWARDS

Kasasa Patch Coin Recipient

An internal company award given out to recognize efforts that have made a significant impact on Kasasa. In this case, for successfully rebuilding/migrating the Kasasa corporate website onto a new CMS.

EDUCATION
